

ENVIRONMENT CHAMPION APPLICATION / NOMINATION FORM

Selby Town Council would like to invite members of Selby Town Parish to support the bees and other pollinators.

Bees are vital to stable, healthy food supplies and key to the varied, colourful nutritious diets we need.

Bees pollinate around 80% of wildflowers in Europe. But Bees are in trouble. There is growing concern at Bee decline across the world.

Bees are not the only pollinators. Flies, wasps, moths, beetles, some birds and bats all pollinate.

Selby Town Council would like to encourage the residents of Selby to support the Bees and other wildlife that are key pollinators. This can be done by planting flowers and creating places for wildlife to form habitats.

To recognise the residents of Selby Town who are supporting the wildlife we have window stickers that can be displayed to show their support.

We are asking residents to send in photos of their own flowers, insect hotels, wildlife habitats so that they can receive a sticker and display it in their window to show their support.

You can also nominate someone who you feel is supporting the local wildlife.

So whether you have a small flower pot with flowers that the bees enjoy, an insect hotel or a garden full of wildflowers – Everyone can join in!

Please provide details of the application / nomination below and email to admin@selbytowncouncil.co.uk along with a photograph of what you / your nomination is doing to support the wildlife.
